

MASI WEB SOLUTIONS
WE DELIVER STRENGTH TO YOUR BUSINESS

We create beautiful websites using
cutting-edge technology to **ensure** that our
clients achieve the **best possible results**

<http://masiwebsol.com>

Let's work together

Who We Are

A man in a dark suit and tie is holding a tablet computer. The tablet screen shows a glowing blue globe with a small house icon on a landmass. Surrounding the tablet and the man are numerous semi-transparent digital and business icons. These include: a network of nodes and dashed lines with airplane icons; several user profile icons, one labeled 'Social Network'; a pie chart with segments labeled 40%, 30%, 20%, and 10%; a bar chart; a line graph; a world map with small human figures; envelope icons; a laptop; a smartphone; a cluster of small square images showing various business scenes; and a glowing blue cube. The background is a dark, solid color.

We want to know all the ins and outs of your business, who you are, what your customer is seeking, what you hope to provide and what you want to say. Understanding the problem is key to developing the solution. Your customers impression of you and your company is crucial.

What are their requirements?

We plan to make your site as useful to your client as possible.

We are not about gimmicks or trends. We concentrate on bespoke, attractive and, above all, effective design, which reflects your brand. We will take your ideas and convert them into a usable and eye-catching digital solution, giving you the ideal platform on which to build your business.

Ensuring anyone can use your website has never been more important. Whether it is a bespoke content management system, e-commerce platform or a straightforward brochure site, you will be safe in the knowledge that it will be built with standards, accessibility and compatibility at the top of our priority list.

We create beautiful websites using cutting-edge technology to ensure that our clients achieve the best possible results.

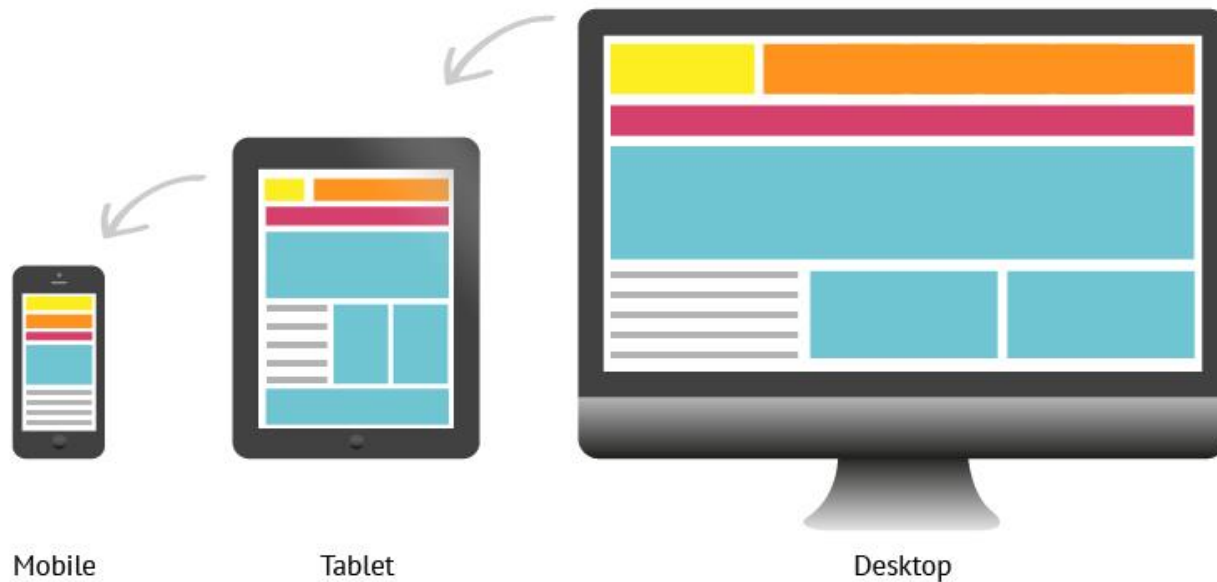

Responsive Web Design

Almost every company wants a mobile version of its website nowadays. The use of mobile devices such as smartphones and tablets is increasing and this is one of the reasons why Responsive Web Design (RWD) plays a key role in the field of web design and development. It's practically essential after all: one design for the Desktop, another for the iPhone, the iPad, netbook, Kindle — and all screen resolutions must be compatible, too.

What is Responsive Web Design?

A responsive sign means something very simple: a website that responds correctly when displayed on mobile devices, which means that all the content, images and structure remains the same on any device.

The three main ingredients of RWD

Before we start going through each of the principles we need to take into account when building a responsive site, it's key to understand that such sites are fluid: both the grids and the images are fluid, letting the content move freely across all screen resolutions and all devices.

- Fluid Grids
- Flexible images
- Media queries

Responsive design is good for SEO

Last but not least, a well optimized mobile SEO strategy has a positive impact on both desktop website and mobile website traffic. In this sense, using a responsive design scheme is a key factor for any company or individual thinking about building a website and wishing to increase their visibility.

A close-up photograph of a hand holding a pen, with a blue-tinted background. The hand is positioned on the right side of the frame, with the index finger and thumb visible. The pen is held between the fingers, and the tip of the pen is pointing towards the left. The background is a soft, out-of-focus blue with some darker, indistinct shapes. The overall mood is professional and focused.

Our Process

Plan

The first step in creating a fantastic website is to identity your goals for the project and find out what you hope to achieve with the beautifully designed and standards-compliant website we'll build for you.

Design

As we've taken the time to understand exactly what your website is, and who it's for, we can begin thinking about how we guide your users through the site using our experience of usability-orientated design.

Build

Once you've given us the thumbs-up on our design, we'll pass things over to our development team who specialize in making standards-based and accessible websites that work perfectly in modern web browsers.

Test, Launch & SEO

Once your website has been launched, we'll look after it as if it was our own. We set you up on our super-reliable hosting and database platforms, ensuring your data is always safe.

Our Services

Web Design and Development

We design and develop websites with a good eye for design and user experience. *Lorem ipsum* dolor sit amet, consectetur adipiscing elit, sed diam nonummy nibh euismod tincidunt ut laoreet dolore magna aliquam erat volutpat. Ut wisi enim ...

What we do

WELCOME TO QZIP FILE ARCHIVER

qZip is open source software. Most of the source code is under the GNU LGPL license. The unRAR code is under a mixed license: GNU LGPL + unRAR restrictions.

You can use qZip on any computer, including a computer in a commercial organization. You don't need to register or pay for qZip.

[Learn More](#)
[Download Now](#)

Questions? Call Us 1-800-888-8888

The main features of qZip

High compression ratio in 7z format with LZMA and LZMA2 compression

Supported formats:

- ✓ Packing / unpacking: 7z, XZ, BZIP2, GZIP, TAR, ZIP and WIM
- ✓ Unpacking only: ARJ, CAB, CHM, CPIO, CramFS, DEB, DMG, FAT, HFS, ISO, LZH, LZMA, MBR, MSI, NSIS, NTFS, RAR, RPM, SquashFS, UDF, VHD, WIM, XAR and Z.
- ✓ For ZIP and GZIP formats, Q-Zip provides a compression ratio that is 2-10 % better than the ratio provided by PKZip and WinZip
- ✓ Strong AES-256 encryption in 7z and ZIP formats
- ✓ Self-extracting capability for 7z format
- ✓ Integration with Windows Shell
- ✓ Powerful File Manager

VIDEO FOR BUSINESS

Welcome! Whatever it is you are wanting to create in the video production and television production world you have found your way to the right place.

Stories. We love telling stories and stories are where it all starts. There is simply nothing like film and video for telling a story, be it a documentary, corporate video profile, sales and marketing video, training video, website video, Television Commercial (TVC), short film or music video. The wonderful thing about video production for business is that creates engagement, tells your story and educates your viewer, increasing impact and driving sales upwards. And at the end of the day IMPACT is what it's all about!
